

THERMOFORMING PACKAGING

1994-2011

UTC-PACK www.ttshop.se Thermoforming Packaging Machine

CE

PLC configurations.

- Language selection.
- Operating mode selection.
- Operating time.
- Error messages.

Easy Operation

- Automatic cycles
- Parameter choice.
- Easy access to all components.

Optional Devices

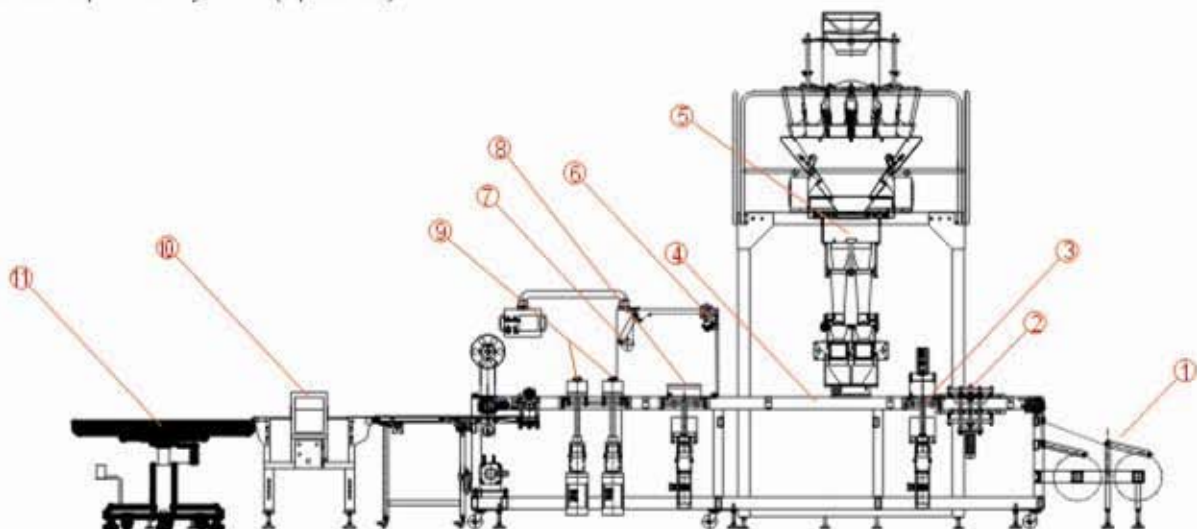

- Automatic multi-head weighing.
- Liquid filler.
- Extended loading area.
- Code printer system.
- Automatic cardboard feeder.
- Gas mixer/MAP.
- Euro hole.

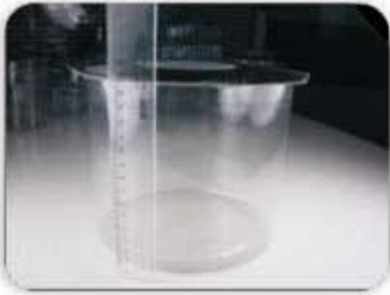

Procedure example

1. Tray forming film
2. Preheating (optional)
3. Thermoforming station
4. Loading area
5. Multi-head weighing (optional)
6. Code printer system (optional)

7. Top film
8. Sealing station
- Vacuum
Gas-flush / MAP (optional)

9. Cutting station
10. Metal detector (optional)
11. Sorting table (optional)

Extreme film thickness of 1500 micron

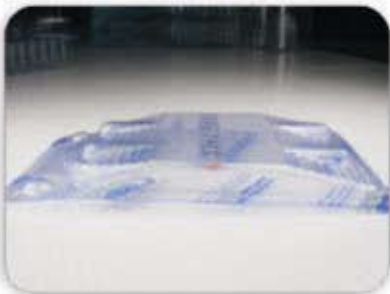

Forming depth to 150mm

- **Pneumatic plug system for thermoforming**
- **Meets super large container requirement**

Benefits

- **saves material cost**
- **Rigid tray strength**
- **Saves storage & transportation**
- **Hygienically safe**
- **Extends shelf life (MAP)**
- **Environmentally friendly**

High quality thermoforming

- **Meets special shape requirements**
- **Strong rib design**
- **Molded company logo**

One die cutting

- **Powerful cutting for thick film**
- **Special cutting technology avoids sharp corners/edges**

Form & Seal Only

- Dry fruit
- Pickled food
- Liquid

Form & Seal only

- Butter
- Jam
- Honey

Form & Seal with Gas-flush / MAP

- Cheese
- Fresh Vegetable and Fruit
- Fresh Meat

Skin Seal

- Seafood
- Cheese
- Poultry / Fresh meat

Blister Package

- Digital products
- Daily necessities

Form & Seal with Vacuum

- Dry Fruit
- Pizza/Pasta/Noodles

Extreme Advance

- Super large thermoforming

Extreme Depth

- Pneumatic plug system

Auto Waste Removal

- Pneumatic film waste system

Application

Flexible film can be packaged with SEAL ONLY / VACUUM / GAS - FLUSH / MAP

- Dates
- Sausage
- Preserved food
- Cheese
- Pasta
- Hardware
- Electronic products
- Medical items
- Hygiene articles

Procedure

- Product filled tray loading
- Top film sealing & cutting

Sealing Station

- Seal only
- Seal with Vacuum
- Seal with gas-flush / MAP
- Blister Package
- Skin Seal

PLC Configurations

- Language selection
- Operating mode selection
- Operating time
- Error messages
- Program saving

Easy Operation

- Automatic cycles
- Parameters choice
- Easy access to all components

Optional Devices

- Automatic multi-head weighing
- Liquid filler
- Extended loading area
- Code printer system
- Automatic cardboard feeder
- Gas mixer/MAP

Thermoforming packaging machine, vacuum / gas-flush / MAP equipment, tray sealer are all CE certified.

SGS Supplier Certificated.

ISO 9001 Certificated.

The 8th year Gold Supplier
