

# Baroness BR96 Unique Selling Points

**BARONESS**  
Quality on Demand

## Control Handle Option

- \* Either a single or double handle options are available to suit the operator's preference.

## High Performance

- \* Provides a smoother putting surface.
- \* Allows a consistent ball roll.
- \* Minimizes turf damage.

## Fold Down Towing Hitch

- \* The built in towing hitch quickly folds down for easy transportation between greens.
- \* Eliminates the need for a separate trailer.
- \* A stand is provided for when the BR96 is not attached to a towing vehicle.

## Robin EX21 Engine

- \* The BR96 uses the very reliable and high performance Robin 4 stroke petrol engine.
- \* Produces 7hp enabling it to effortlessly cope with all sloping greens.
- \* Very economical on fuel.

## Maintenance Accessibility

- \* All safety covers are quickly opened for excellent service access.

## Smooth Direction Change Transition.

- \* Direction changes are applied slowly and smoothly.
- \* Reduces turf damage from spinning rollers.

## Large Pneumatic Transport Wheels

- \* Provides suspension over rough ground to minimize transportation damage.
- \* Provides higher ground clearance during transportation.

## Large 8 inch diameter main roller

- \* Reduces roller marks on the putting surface.
- \* Provides a very smooth ball roll.
- \* A rubber coating reduces stress to the turf.
- \* Weight distribution is over a larger area thus reducing compaction.

## Tapered Roller Ends

- \* Provides smooth turning without scrubbing the turf.
- \* Reduces turf marking of the greens from the rollers edge.
- \* Provides a smooth overlap between adjacent runs.
